

Name: _____ Date: _____

6-7.9: I can recognize that the other eight known planets, which revolve around the Sun, have characteristics and surface conditions that are different from Earth; and identify examples of those differences.

6-7.10: I can recognize that not only Earth, but other planets, have moons; and identify examples of similarities and differences in the characteristics of those moons.

Your Mission: Create a trading card that has two sides with the following information:

Front

- Your planet named - including the origins of the name
- The temperature of the planet
- Distance from the sun
- Duration of orbit
- Length of day
- Number of moons
- Surface conditions
- Interesting facts
- A picture of your planet

Back

- A picture of all the planets with yours indicated
- Below picture create a T chart comparing your planet's moons to our moon
